

Homemade Baby food, fast and easy, thanks to the Braun MQ 5 Baby hand blender.

BRAUN

Multi **Quick 5**
Baby

What better way to give your baby the best start in life, than with fresh homemade food. Fresh fruit and vegetables offer the best nutrition for little tummies. No colourings, flavourings or additives, just simple goodness in every bite.

As a busy parent though, finding the time to cook from scratch can be an issue with all the other things competing for your time. That's where the Braun MultiQuick hand blender can give you a helping hand. It's never been faster or easier to whip up a nutritious meal for your little one.

Delicious and nutritious

Braun believes that babies deserve the very best food from the very first bite. The new MultiQuick 5 Baby hand blender enables you to blend small or large portions of baby food to a fine puree, directly in the pot without splashing. You can freeze any leftovers with the bonus freezer container by Mushy Mushy, perfect for another day. As your baby gets bigger, simply adjust the blending time to leave a more textured and chewy consistency.

Only the best for your baby

With the Braun MQ 5, your baby or toddler will get all the vitamins for the healthy development they need. Blending your choice of ingredients into delicious, fresh meals also helps your baby develop healthy eating habits.

5 Reasons to consider homemade food for your baby:

- 1) Fresh fruit and vegetables offer the best nutrition
- 2) Full control over what goes into your baby's food
- 3) Saves you money
- 4) Saves time when you make multiple batches
- 5) Introduces flavours that are natural and tasty.

MQ523 Baby - £74.99

Special Features:

- Powerful 600w motor – for fast and easy preparation.
- POWERBell Plus – the extra milling blade lets you blend super smooth baby puree.
- SPLASHControl technology – Quick.Easy.Clean. Perfectly designed so that you can use the blender directly in the pot for large quantities of baby food without splashing.
- Extra lightweight – this ergonomic hand blender is 30% lighter than other metal shaft hand blenders*.
- Dual Speed control – choose between two speeds to customise food texture according to your baby's age.
- EasyClick system – two buttons, one movement for quick and easy changing of all the great EasyClick accessories.

Extras include: a 350ml chopper, silicon freezer container, 600ml BPA-free beaker, spatula, and detachable blades and shaft.

*Test run by independent institute comparing 9 similar competitor models.

So where can you purchase this nifty little gadget? Argos and John Lewis are currently selling.
